# Program Overview

## Leadership Development Strategy

The LifePoint Institute has a threefold approach to developing and deploying leaders who are feeling called to ministry. The three areas of focus for students in the institute are academic learning, practical ministry experience, and mentorship/coaching. Each of the aforementioned emphases will help to shape ministers who are called, competent, and high character.

### Theological | Academic Learning | Strategy 1

Every student in the LifePoint Institute will be exposed to rigorous and consistent academic workload that will aim to expose them to topics beneficial for ministerial service. Involvement in the LifePoint Institute will include a steady supply of lecture content provided by doctoral level faculty and highly experienced pastors serving in ministry. Throughout the duration of each semester, students will be assigned quizzes, exams, projects, papers, presentations, scripture memory, and extensive readings.

### Practical | Ministry Experience | Strategy 2

Every student in the LifePoint Institute will be immersed in the world of everyday leadership and its accompanying challenges. The heartbeat of this program is to provide godly men and women with the opportunity to gain exposure to a wide variety of leadership experiences. A supervised field experience designed for men and women who are enrolled in the LifePoint Institute will aim to develop mature and competent ministers. The student will integrate his or her academic learning into practical ministry experience with special emphasis on care, discipleship, evangelism, leadership, teaching, and preaching.

### Relational | Mentorship and Coaching | Strategy 3

We do not believe that godly ministry happens in isolation from wise counsel, mentorship, and coaching. As such, students enrolled in the LifePoint Institute will not only experience a cohort-model of education, but they will receive regular coaching from a ministry mentor. In coordination with the field experience documents (Appendix C), the job of a ministry mentor is to challenge, encourage, and equip in a discipleship relationship.

# Program Requirements

---

## Church Membership

It is expected that students will be members of LifePoint or another Bible-teaching church. We expect that all students and their family members will be actively involved with LifeGroups and ministry teams for the purpose of personal growth, developing relationships, and engaging with the local community for the glory of God. Onramps for membership at LifePoint are provided monthly. Exceptions for membership can be made for those participating in the program who belong to other churches.

## Attendance

Active participation is a critical success factor; excessive or unexcused absences may result in termination from the program. It is expected that students will attend all Institute class sessions in order to complete the program. Regular and punctual attendance will be expected for all students. Although absences may be unavoidable at times, these occurrences should be rare. Students will provide prior notification to their instructor when an absence will be necessary. When a class is missed, it is the sole responsibility of the resident to obtain any information that was covered and/or make up any assignments. Work missed may be made up at the discretion of the course facilitator and/or program director. Consistent absences may be grounds for dismissal from the program.

## Character Statement

As part of the leadership team at LifePoint, all students will be expected to live above reproach. This means that students are required to understand and comply with the document entitled, “Leadership Character Commitment”. This commitment has been created to assist in protecting the reputation, character and integrity of the individual leader and LifePoint Church. As representatives of our Lord, Jesus Christ, it is imperative that all participants adhere to a policy of strict moral conduct.

(See Appendix A)

## Healthy Rhythm

The LifePoint Institute is a rigorous opportunity to deepen calling, character and competency. With that in mind, the program should not replace or usurp a resident’s responsibility to his or her family, LifeGroup, and ministry team. A prolonged season of unhealthy rhythm and priorities may be grounds for dismissal from the program.

## Technology Requirements

Beginning in 2022, all students will need access to a computer with internet access, email, and the ability to access websites in order to complete the program. Due to unpredictable circumstances, many of our classes may be required to meet online rather than in person. As such, students will need equipment that allows them to participate in Zoom or other online sessions.
